

The Boulder AI and Systems Infrastructure Lab (BASIL) seeks multiple positions for hourly student research assistants.

**Job Title:** Graduate Hourly Research Assistant

**Job Duties and Qualifications:** We are seeking graduate students with a background in machine learning and/or systems. The ideal candidate should have hands-on experience working with distributed/cloud infrastructure and ML frameworks (e.g. PyTorch/TensorFlow). Strong programming and software engineering skills are expected.

**Pay Range:** \$18-22 per hour, 10 to 20 hours per week

**How to apply:** Email [myzhao@colorado.edu](mailto:myzhao@colorado.edu)
